

SIX APPEAL VOCAL BAND

Contact: Jordan Roll - (701) 391-4453
sixappealmusic@gmail.com

Technical Rider

As part of the purchase price of the feature performance, Six Appeal will provide a state-of-the-art sound system. This system is capable of amply filling a venue of approximately 800 seats at full concert volume. Six Appeal prides itself on the quality and ease of the operation of its sound system so that the highest quality show can be provided. Aside from that, the band has very few necessities that must be met to ensure the best possible show for its clients. They are as follows:

- Six Appeal will provide their own sound system for venues under 800 seats. For larger venues, please contact Jordan Roll at 701-391-4453 to discuss technical requirements.
- Two circuits with non-G.F.C.I. outlets. Located a maximum of 50 feet from the stage.
- Six Appeal highly prefers access to the venue three (3) hours before the venue doors open for seating.
- Adequate lighting for stage performance. This is up to you as to what you consider adequate. Six Appeal can provide additional lighting if the need arises.
- If you have on-campus A Cappella groups opening for Six Appeal, they request you provide 3 microphones on stands for them to use for their sound.

Please sign, and return.
