

Trent James

Contract Rider

Thank you for hosting Trent James at your event. The following technical recommendations are to help enhance the performance and most importantly, create a safe environment for everyone.

Please provide the following:

STAGE

- An auditorium/theater stage is preferred however an extremely stable riser/platform may also be used. (If a riser/platform is being used it should be as large as possible—12' x 10' minimum.)
- Riser/Platform must be flush against a wall, please provide steps on stage left, right, or center for audience access (NO side rails for front stairs)
- The performance area must be clean of all outside equipment and ready for soundcheck/show setup.
- The audience should be seated no further than 6 feet from the stage. (Unless the performance is in an auditorium/theater-type setting.)

LIGHTING (Stage lighting always enhances the performance but is not required)

- The performance area should be well lit—a Full Stage Wash is recommended.
- House lights dimmed during the performance.

SOUND

- A clear, quality sound system suitable for the size of the audience.
- TWO open channels/inputs for Trent's wireless headset microphone and iPad.
- A direct input box may be needed depending on where the iPad is plugged into the system.
- Please provide a wireless handheld microphone on a straight stand.

VENUE

- Private access to the venue 60 minutes before showtime. Please have a sound/lighting technician available at this time.
- Please allow for 30 minutes after the performance for meet & greet and packing up.
- A reserved parking spot should be provided as close to the venue as possible.

SUPPLIES to be provided by the PURCHASER

- Three bottles of water.
- A wooden stool without a back.
- A small empty trash can.
- A carton of white eggs (Size Large) without any marking or stamps on them. These are for a trick in the show, no mess will be made. **It is important to remove the eggs from the fridge at least 2 hours before the show so they can get to room temperature.**
